

# SIMCITY™

**A sophisticated city simulator where the future depends on your decisions!**

Start with a fledgling town (you name it yourself) and build it into a metropolis. Or, take on the challenge of rescuing a city overwhelmed with problems. Either way, taxes, zoning, crime, transportation, education, fire control, and other critical issues are in your hands. Time is passing, and every decision you make has a future consequence. Your assistant, Dr. Wright, can help you make the right decisions. Just ask!

Surprise catastrophies also threaten your growing city – fire, earthquakes, airplane crashes, even a giant Koopa who has a nose for industrial pollution!

Will you build the ideal city? Or will disgruntled citizens leave you with a ghost town?

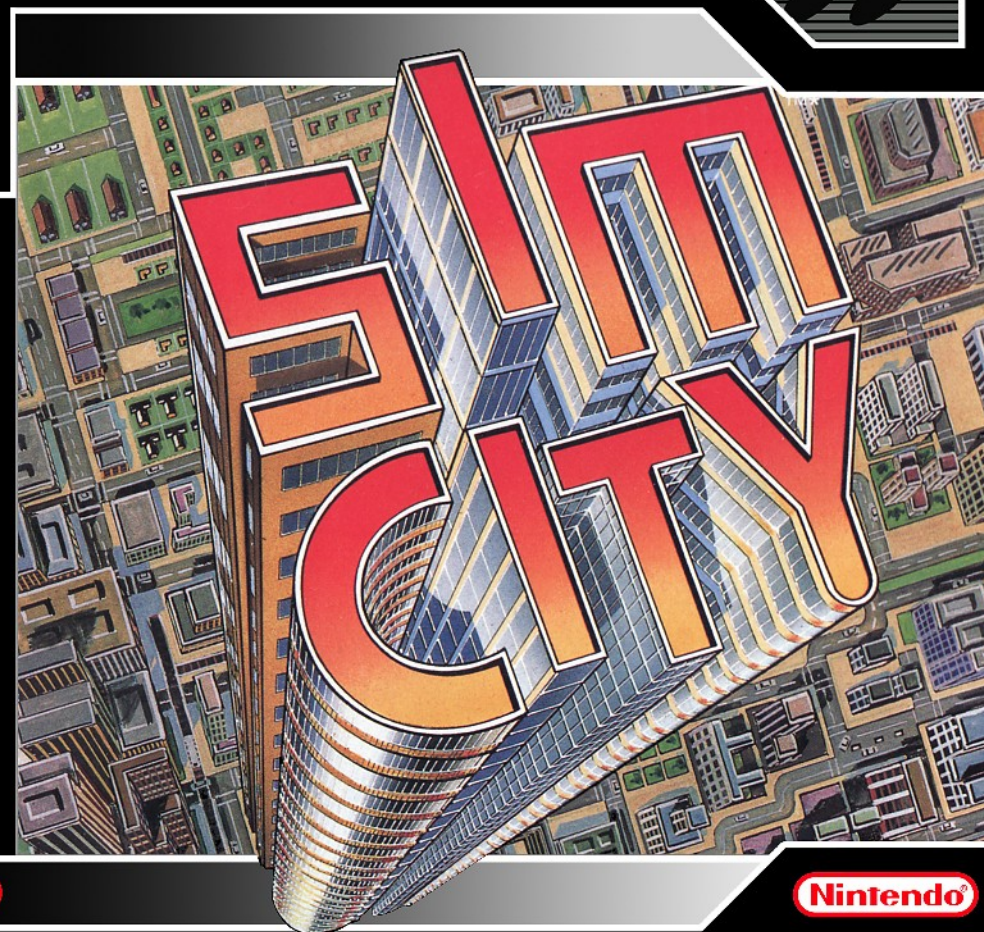

Battery inside game allows you to start where you left off.
